Sometimes things can happen beyond your control that may affect your dog’s safety and security... natural disasters, accidentally unsecured doors or gates, home invasions, and other unforeseeable situations that could release your pup into harm’s way. Because you love your dog, you will want to take every precaution. Microchips are a must-have, but nothing will get your pup back to you faster than our collar. If you can’t be reached when someone encounters your dog, Pup-Eez will be called next to retrieve your pet and care for him until we can safely return him to you... **at no charge!**

Please order via telephone, so we can be sure to get every detail exactly right!
